

TS5 Economy

Overview

The TS5 Economy combines the best of two Secabo bestsellers. With its swing mechanism, the TS5 Economy is particularly convenient to operate and transfer objects can be aligned comfortably. The crank handle regulates the contact pressure quickly and comfortably and due to the parallel closing base and heating plate, even thicker transfer objects such as hoodies can be pressed without any problems. The compactness and ease of operation has been carried over from its sister model in the TC series, the TC5 Lite. The compact size of 38 cm x 38 cm makes the TS5 Economy space-saving and transportable - making it the ideal press for sports and cultural events or festivals. The control concept has been deliberately kept simple to enable effective handling and ensure intuitive operation even for beginners. The TS5 Economy represents the perfect, compact basic product that can be expanded as required thanks to its modularity. If required, base or heating plates can be retrofitted in a cost-saving manner and components can be easily exchanged, thus offering both beginners and professionals the necessary flexibility. The TS5 Economy heat press offers everything that makes textile transfers with Secabo so convenient. All professional applications of the common hot transfer processes such as flock foils, flex foils, sublimation, inkjet flex, etc. are of course possible.

Technical Data

| | |
|---|--|
| Dimensions open swung to the side | 68cm x 91cm x 59cm |
| Dimensions closed (incl. stand extension) | 55cm x 88cm x 50cm |
| working area | 38cm x 38cm |
| Swivel angle | 105 °, opening to the right |
| scope of delivery | Mechanical base, heating plate and base plate, CL01 controller box, C13 power supply connection cable, tools, operating instructions |
| pressure setting | Height adjustment of the heating plate by means of a hand crank |
| max. downforce | 180 g/cm ² |
| max temperature | 225 °C |
| maximum time preset | 999 s |
| max. clam angle | 40 ° |
| power supply | AC voltage 230V / 50Hz - 60Hz, 2kW |
| environment | +5°C - +35°C / 30% - 70% humidity |
| Options | Quick-change system, various interchangeable plates, slide extension, membrane base plate, TB7 Thermobase |
| weight with package | 42,60 kg |
| Brand | Secabo |
